

#LiberateSets

Ready, Set, Action!

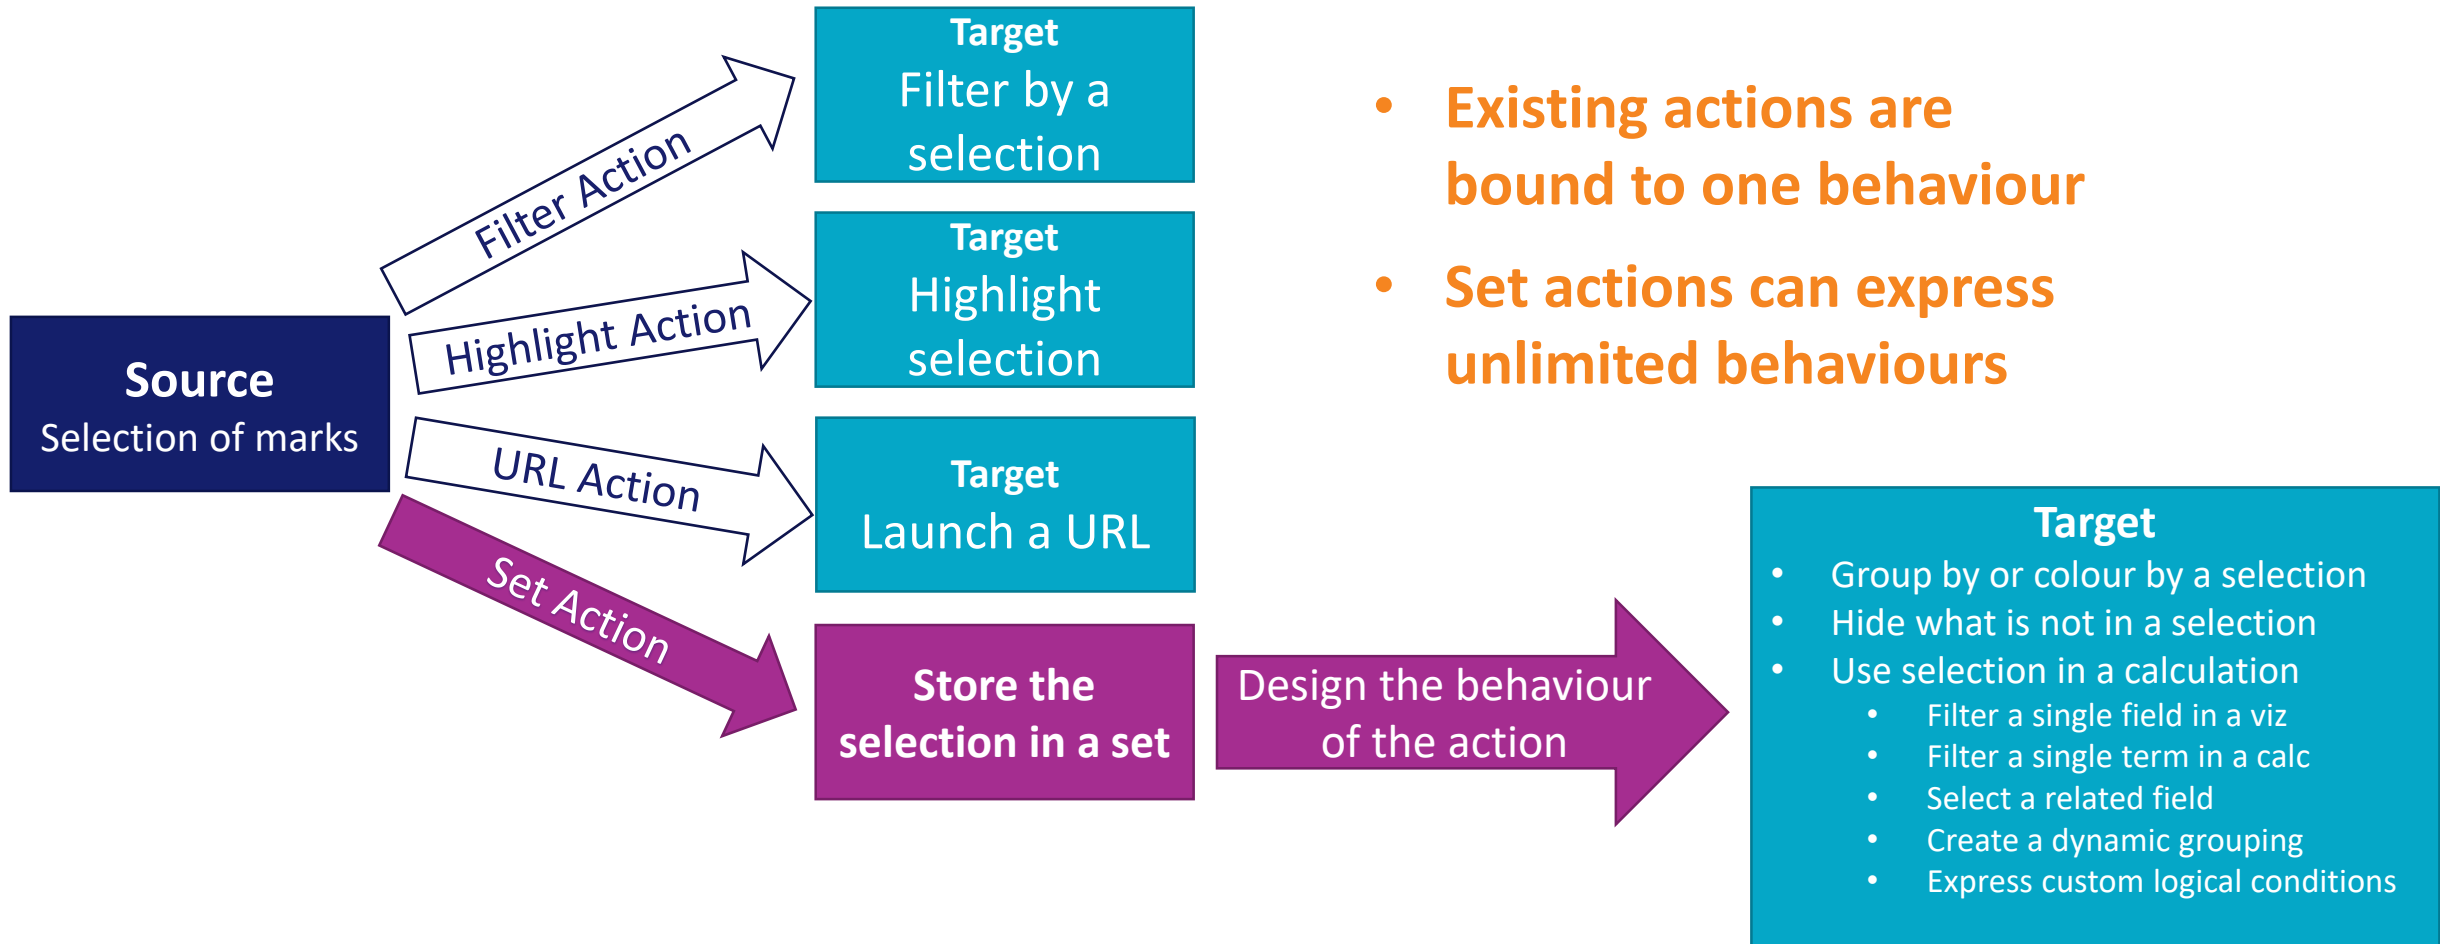

Bethany Lyons

Spiritual Leader of the **LIBERATE SETS** Movement

Tableau

Behaviours Expressed Through Interaction

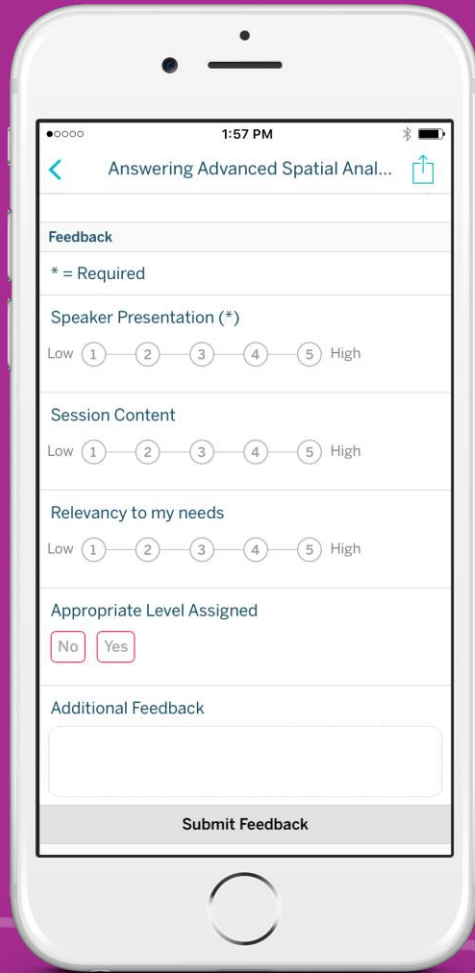

- Existing actions are bound to one behaviour
- Set actions can express unlimited behaviours

Get in touch! I consult in exchange for information!

- Complex time and event calculations or data transformations
- Lots of blending, LoD expressions to correct aggregations, scaffolding tables
- Analysis of relationships and high dimensional data sets
- What-if scenario analysis/ Tableau as a calculation engine
- You need selections in Tableau to invoke an ETL process at runtime
- Interactive data science applications
- Writeback (eg: for mark level commenting or workflow)
- Alerting
- Tableau as temporary relational cache for webservice responses
- General product feedback
